What was disclosed...

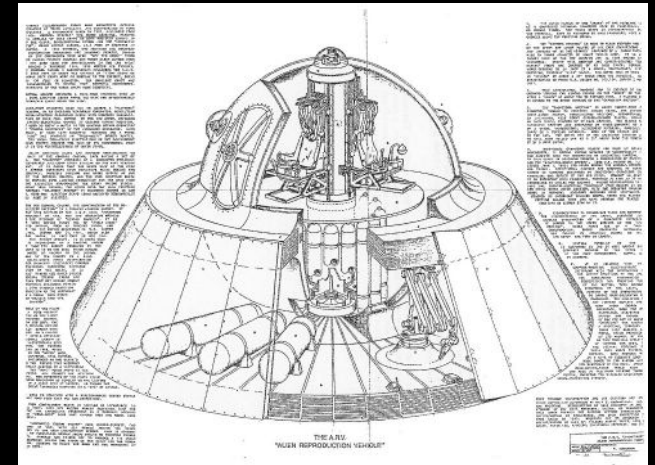

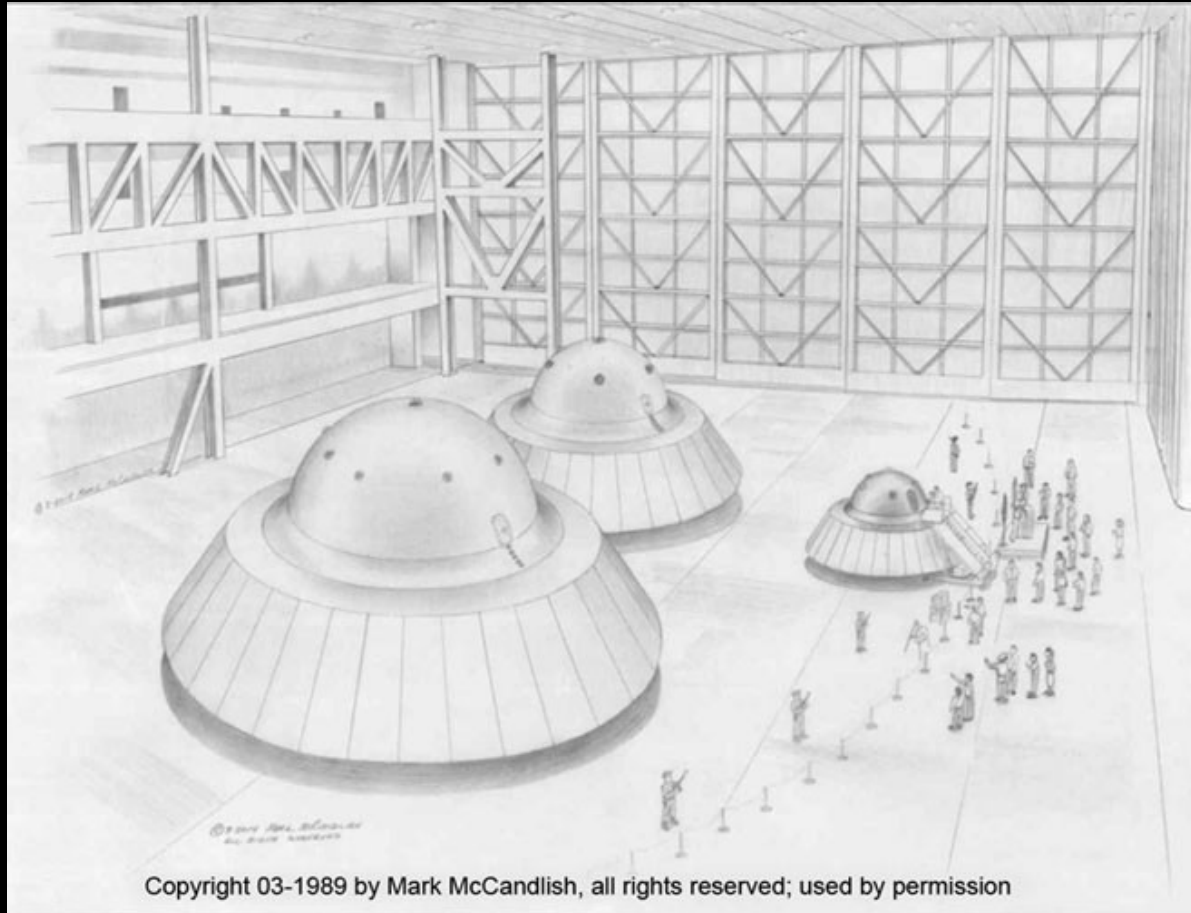

- Our legal constitutional government is being denied access, including Presidents, CIA directors and Heads of Intelligence
- No legal oversight to these rogue Unacknowledged Special Access Programs taking in billions of dollars.
- We have the scientists within these special access programs that can prove before an open congressional hearing that we have ZPE Technologies that could end the energy & environmental crisis
- Before we went to the moon, a Lunar base on the far side of the moon was visually witnessed at an NSA Facility
- Astronauts are sworn to secrecy what happened when they went to the moon, and that NASA sanitizes the UFO photos before releasing to the public

- 57 different ET species as of 1989 have been cataloged according to retrieval team member
- Red glowing disc ET craft have shut down multiple nuclear weapons at missile launch facilities
- US Navy ships reporting disc shaped craft coming out of the ocean in secret reports
- Alien Reproduction Vehicles built back in the 1950s were witnessed in 1988 at Norton AFB
- Wernher Von Braun disclosed in his deathbed testimony that a series of false flag scenarios had been pre-planned. The next event was terrorists, which actually happened as predicted 4 months later on 9/11, with the final planned event to be a false flag alien invasion

and much more...

Dr Salla has since spent full time doing in-depth researching of this subject and educating the public, and has become a recognized world authority on the subject of expolitics

The Matrix of Perception

The greatest tool of psychological warfare

Someone once said...

“When a well-packaged web of lies has been sold gradually to the masses over generations, the truth will seem utterly preposterous and its speaker a raving lunatic.”

Researching for Answers

Being a witness and an ex-ABC newsman, a media company felt I would be a good candidate to write an article for them on the control of the media in regards to the UFO/ET matter. Wanting to find the answers for myself, I gladly accepted.

The article was titled...

Who controls the agreed upon reality through the mainstream media and why they fear disclosing the truth about the extraterrestrial reality?

To find this answer I began to research back through history from the beginning of the 20th century to present day based on witness testimonies and authenticated documents in which a hidden history that read like science fiction began to reveal itself...

Professor Hans Eysenck, then chairman of the psychology department at the University of London, wrote a letter insinuating that there was a gigantic conspiracy involving some 30 major universities all over the world and hundreds of highly respected scientists who silenced the truth about what they knew about the powers of human consciousness to affect reality.

Professor Hans Eysenck

The secret societies know that human consciousness co-creates reality based on what the mind believes to be true and real. This process is amplified when instilled in the collective consciousness of the masses through the media. They are projecting what they want into your minds so that you co-creatively build that reality in support of their agenda.

Today we continue to have an infiltration over several generations of a domestic enemy that is centrally controlling our information systems using psychological warfare to support an agenda that is against an unsuspecting public. But many are now starting to see this fact.

The Science Transfer Program to Terra

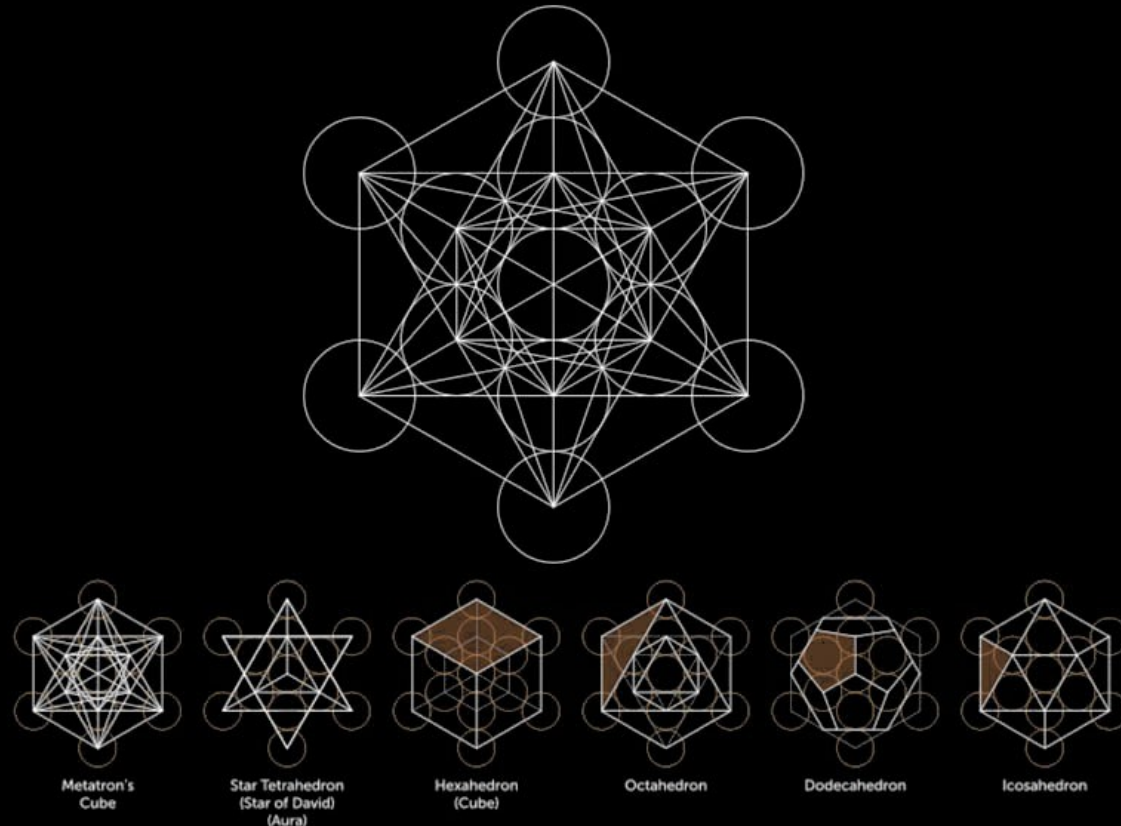

Jen Han Eredyon (April 21 2024) Communications Log excerpt:

“The Emerther are part of the science transfer program to Terra, working with other cultures such as the Ummit and Selosi. In fact, the Emerther initiated it.

This Emerther probably followed your development in your temporal imprint and decided to provide you with science. To my friend, this is the science of the universe.

He has prepared you, as the science transfer program allows, by modeling your understanding of the universe on a consciousness level, so that when the time comes, you will be able to understand the science that will be given to you to pass on to the Terrans.”

At that time in 1977, I had no prior knowledge that within the structure of the flower of life that all of the Platonic solids nested together one within the other, as the Emerther had shown. Upon discovering this, it left great a passion to understand the meaning of this experience.

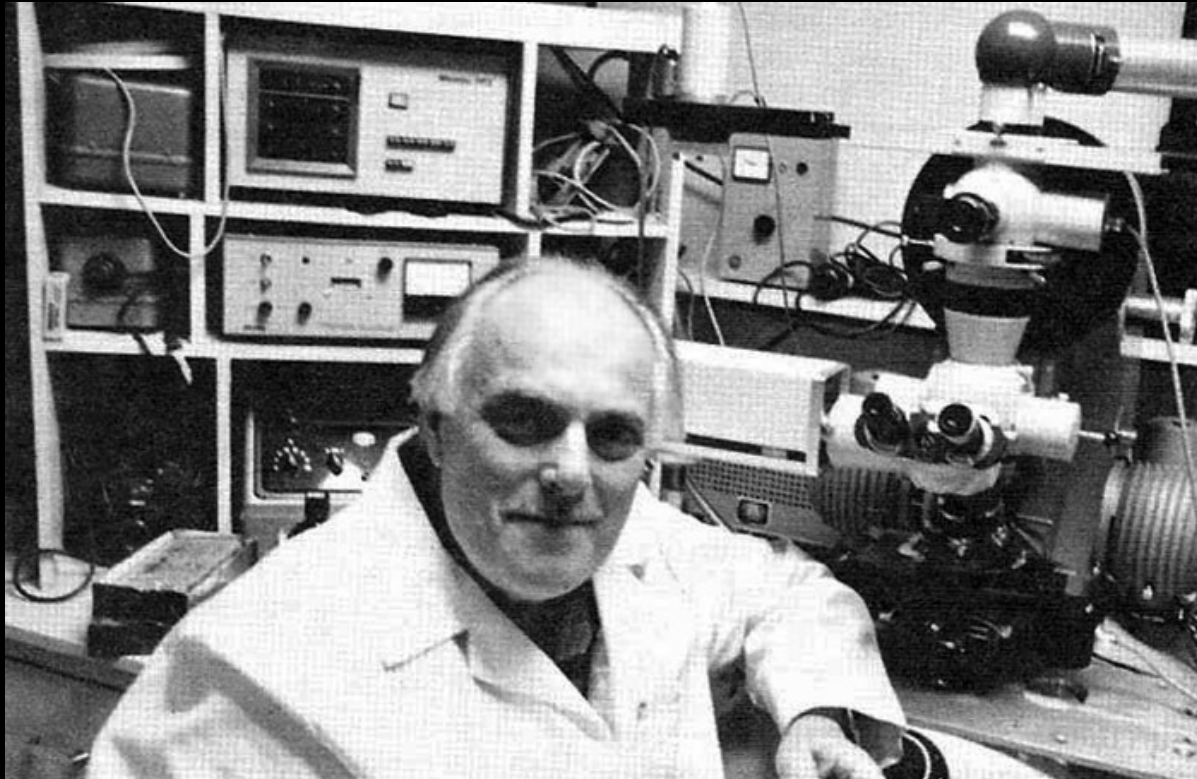

This experience led me to ask the Question

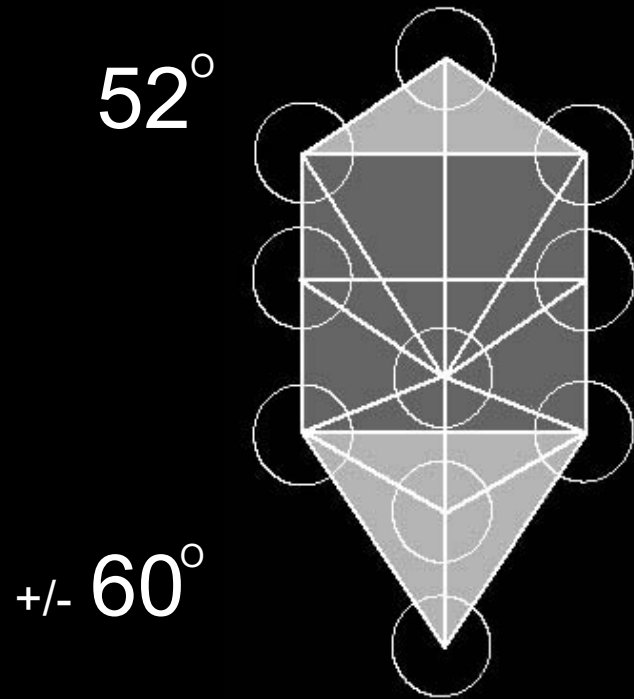

What is the geometrical nature of the matrix
of reality and it's interface with consciousness
and it's relationship with quartz crystals?

The ability to tune through the holographic field of time

The holographic field has a time vector which is tunable. This fact was substantiated in this project that I worked on with Dr Marcel Vogel

Although primitive in comparison to the extraterrestrial technology of the med beds, it never-the-less proved in the 1950s that the holographic field can be tuned through in time.

Tuning through the holographic field in time the recorded segments when the body was optimal

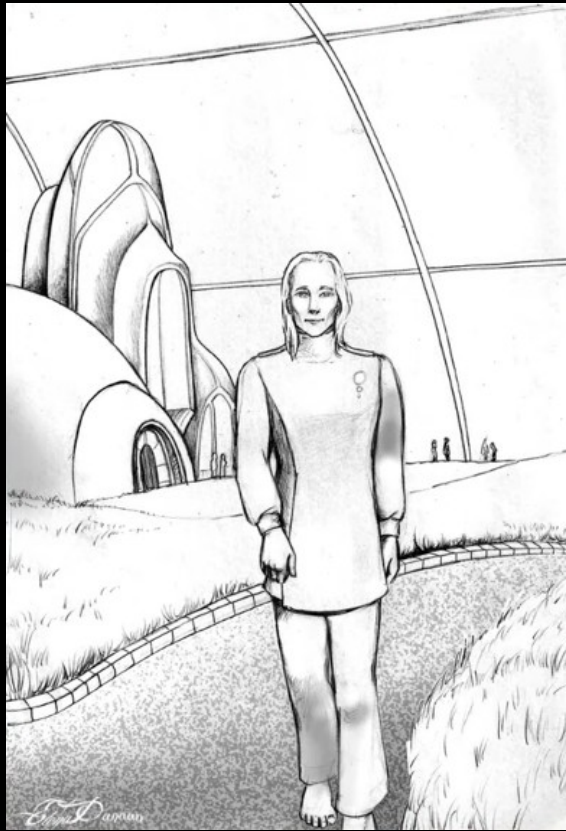

The fractal holographic technology of the med beds

“Some med-beds technology use fractal holographic technology. Let me explain. The fractal core formula of the tissue to repair is recorded, and the perfect unaltered geometrical pattern is reconstructed and superimposed on the damaged pattern. The old pattern instinctively pairs and morphs into the new one, because the universe tends to perfection. It is a holographic fractal re-pairing. Sound frequency is used to “tie in” the new pattern to the old one. You remember how I explained earlier, that holographic structures are constructed or either altered by frequency?”

Elena Danaan uses a “Time Looking Device” to view 20 years in the future

High Commander Haben onboard the Meton ship said to Elena:

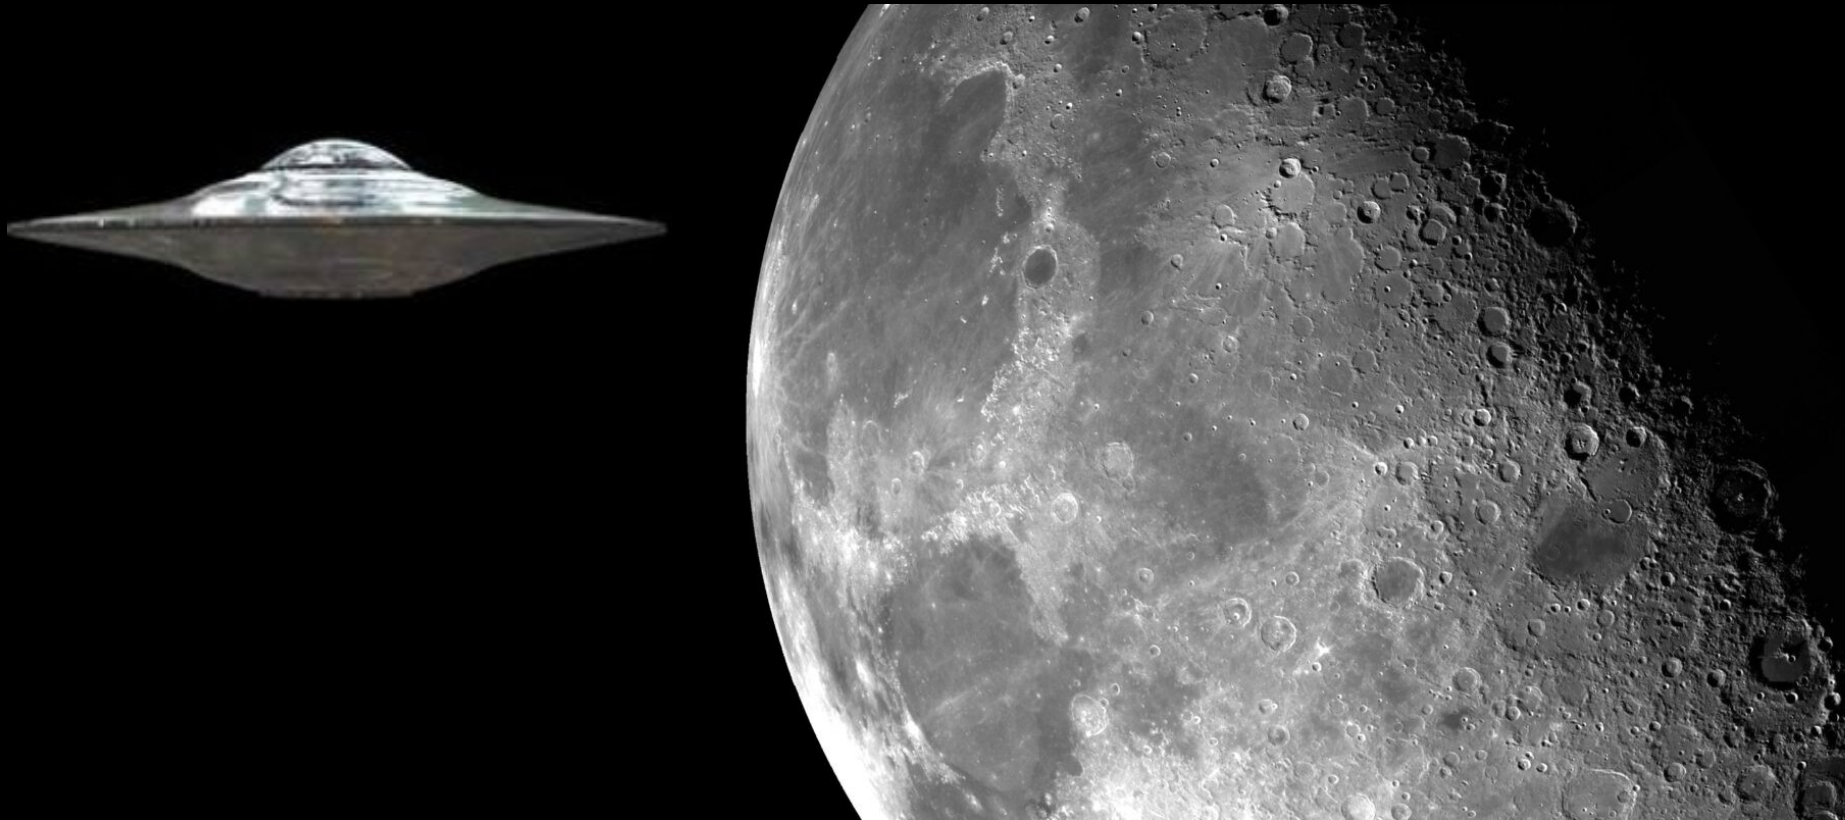

"All these technologies that you saw, existing 20 years from now are being produced now in this precise moment. Everything is real, everything exists already. It's ready for when the people of Terra are ready. And a new leader will come, and the dark will vanish. Because the light will rise. All the real leaders will rise all over the planet, the planet Earth as you call it. And it is now, very soon, the time when you stand up and the hand that we held to you, you finally take it, and we are family. "

There became a growing number of witnesses coming public that claim to have total memory recall of their service within a secret space program.

What we have learned from Jen Han Eredyon...

Quartz Crystals

“The core holographic structure of quartz, the purest material in the universe, is based on the same core fractal formula as water, and both are inter-dimensional bridges. Crystals can store data just as water does, because it is constructed on the same fractal core formula, but crystals have way more capacities. Of course, they are the most elaborate state of matter. So elaborate that it naturally embeds consciousness. A crystal is a bridge because it exists in all dimensions at a time.”

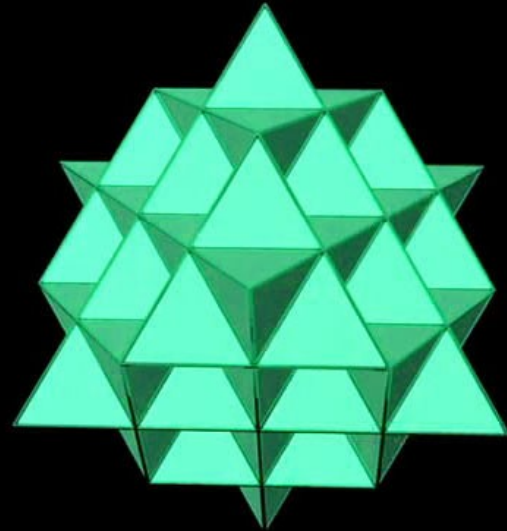

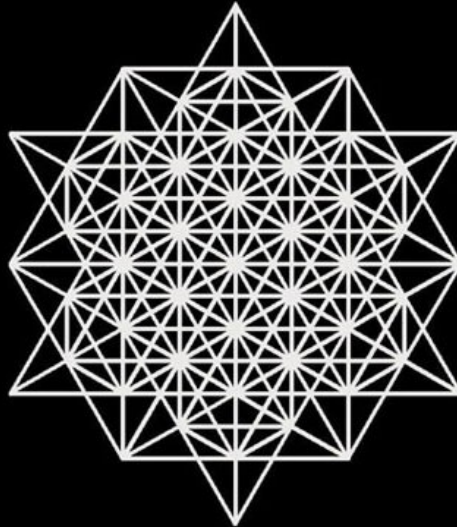

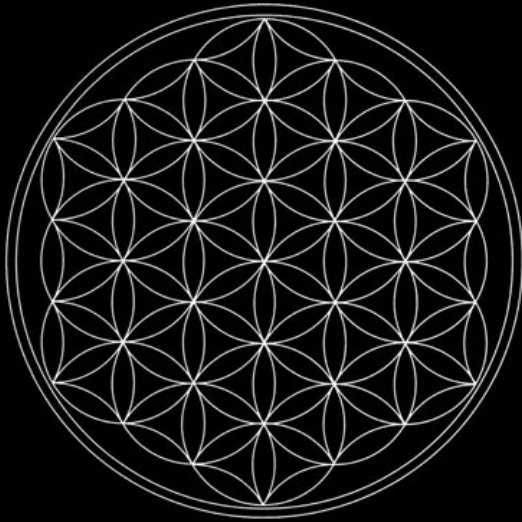

- Jen Han Eredyon

Tetrahedral Geometry the secret of the universe

“Tetrahedral geometry is one of the main frequency keys used to build worlds and life-forms.
Tetrahedral fractal geometry is the secret of the universe.”

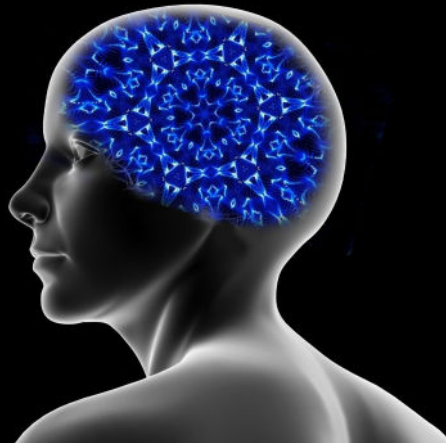

- Jen Han Eredyon

Geometry of Thought

“Everything in the created universe is constructed on a geometrical holographic structure. The energies of the mind are fractals of consciousness “solidified”, in a way, or shall I say, that have taken form as a geometrical manifestation. A thought creates an electrical projection. An energy-thought reshapes the holographic geometrical formula of reality. It rearranges the micro-connections linking the fractal elements. Thought can reshape the holographic grid of reality because thoughts are complex geometrical patterns. The crystal will bridge the new pattern to the existing ones, and if the impulse is strong enough, the new pattern will force themselves onto the old and the old will morph into the new.”

- Jen Han Eredyon

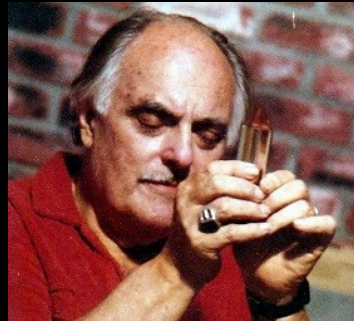

Breath

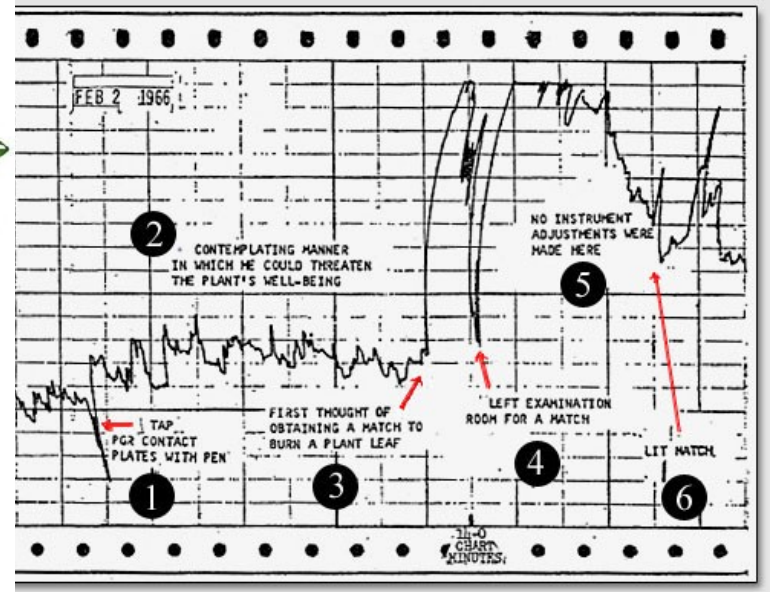

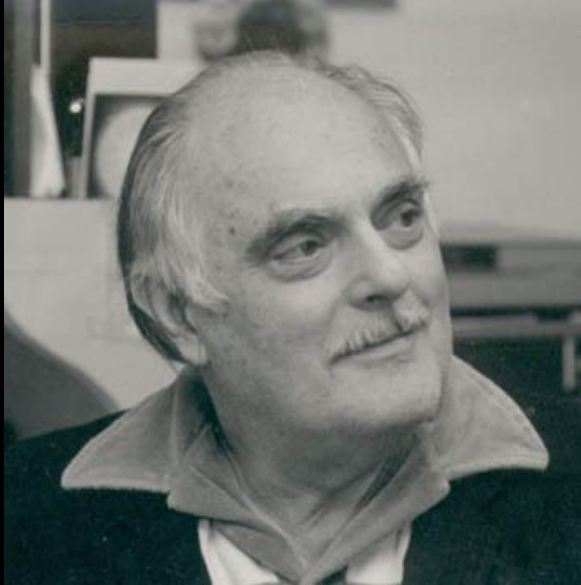

“Breath carries memories and thoughts, it also carries the energy of a being, not only the encoding of its vehicle DNA but as well the encoding of the soul. When you project breath, you also project by superimposing, a parcel of the soul/being. Hence a fragment of one's consciousness. The energy force that is a living manifestation of Source is being impregnated inside the crystal.

Short precise, surgical, powerful breaths are better than a long one. In a long one, the energy/intention gets absorbed by the Ether. In short quick breaths, the energy/intention keeps intact and doesn't lose intensity. I recommend short quick breaths, think about "precise surgical". Intention is like a needle: sharp and targeted very precisely to be able to penetrate matter.”

- Jen Han Eredyon

The Pulsed Breath was measured to have a greater reaction in man / plant communications

Love

“The frequency of love is the connecting pulse between all living things in the universe. Even through dimensional planes. Love is the universal bridge. It can bridge anything, I mean a-ny-thing, love is the tool. So when you intend love into a crystal, you activate its transcending capacity. When on the top of this action you embed a target by visualization, it bridges you to it easily. Love is a secure channel, because of the high frequency. It prevents dissonance.”

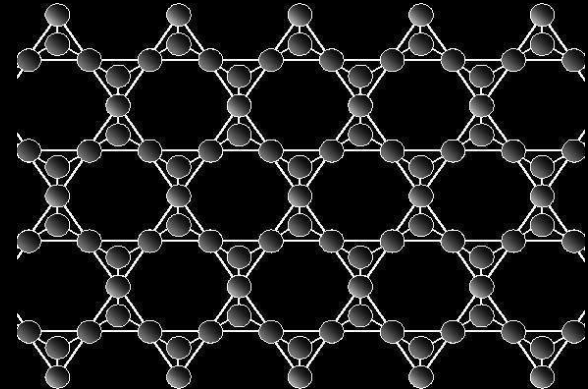

- Jen Han Eredyon

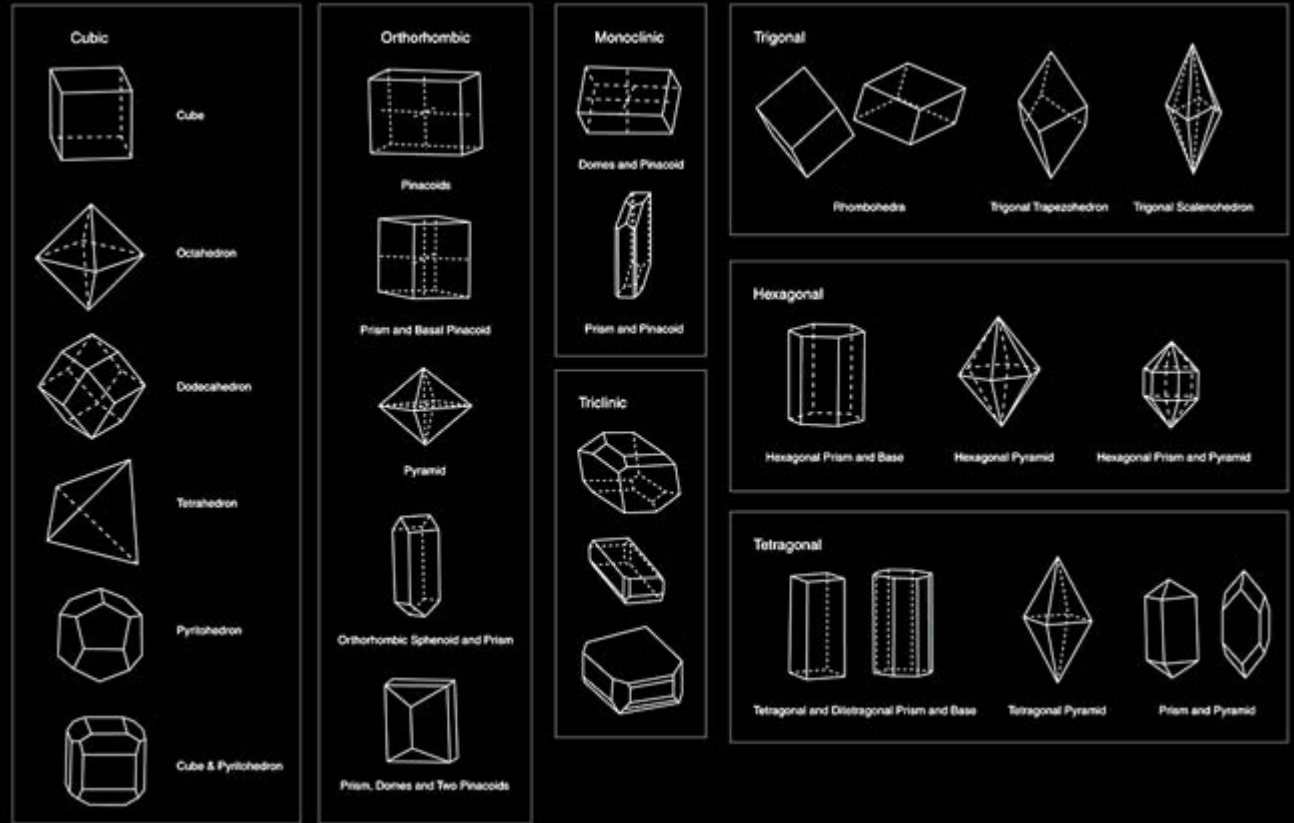

**Water, love and quartz crystals all interface naturally
based on the same geometrical fractal core pattern formula**

"Water, by its natural core structure, is a universal connecting medium. Love is of a more complex holographic structure, but from the same fractal core pattern fractal formula as water. Crystal is a derivative geometrical pattern from water and love, but built on the same core formula. This is why all interface naturally."

- Jen Han Eredyon

Water is universally resonant with all geometries

Ice core samples in Antarctica reveal in water the formation of all of the major crystallographic forms

The reason why only love can resonate into the higher densities

“Dissonance cannot attune with an ordered state of geometrical resonance.”

- Jen Han Eredyon

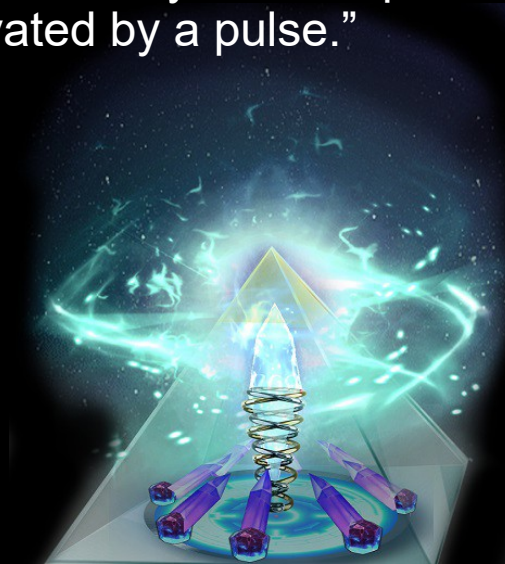

Dr Masaru Emoto's water crystal formations demonstrating how dissonant energies can not take form

Phryll

Phryll

“The Phryll from Source is the most powerful energy you can ever imagine to harness. Of course, when the singularity of the vortex is triggered in the crystal, and when it bridges to Source, Phryll comes from it. Phryll is the energy created from gravity waves in what you name the ether. These gravity waves are also named compression waves. These waves can be created by gravity or a scalar pulse sufficiently powerful and constant. You will learn that consciousness can produce scalar waves and generate Phryll. I am not speaking about the electrical brainwaves, which are efficient too, but about pure consciousness. Phryll can be present everywhere in the multiverse, and it is efficient when it is activated by a pulse.”

Crystal Phryll Generators on the Planet Erra

“On my homeworld, we have power generators such as those you know from Atlaa. I wish I could converse with you directly from face to face, how exhilarating it would be.

Anyways, on Erra, we do have central power plants. Pyramidal power plants with a tall natural crystal in the center core. The Phryll harvested is collected in the top of the pyramid and resonated, or you may understand better the term “teleported”, to smaller devices, that we name secondary generators. These transpond the Phryll for and towards the power web of our cities. In countryside settings, each house can choose to own a small replica of the big pyramid generators, or we can either have a generator that supplies a whole community. That is how we have organized where I am coming from, Edora-Ur in the Nardaryen valley. We are relying upon a community generator on the hill above the valley. It supplies power to all the habitats.”

- 2 Reality Modulator
- 3 Crystal Healing Work
- 4 Crystal Clearing Device
- 5 Water Clearing Device
- 6 Crystal Phryll Charger
- 7 Phryll exercise to repair DNA

1 Phryll Generator Crystal

The Phryll Generator Crystal is currently being optimized for Phryll generation. This is the technology that powers the cities on the planet Erra. At this time we are not authorized to seek electrical power generation of the Phryll energy, but we are allowed to utilize the Phryll that is being generated for beneficial applications on our planet.

Beneficial Applications of Phryll

Quotes by Jen Han Eredyon

“Phryll modifies matter by reorganizing the atomic bonds in what is dissonant. That is how you say in a simpler way that Phryll can heal. Phryll has no effect on the atoms properly speaking, but on the frequency between them.

Phryll regenerates your cells by invigorating and strengthening the bounds between the particles that compose it.

With Phryll-charged water, you can drink this water and bathe with it. Rinsing your hair with this water, you will notice a difference in the radiance of your hair. This water heals, it can re-pair disharmonics in the body. It extends youth.

Plants and other biological life-forms such as humans naturally feed of Phryll that is present in the surrounding ether, as you call it. Increasing the Phryll supply has not only an energizing effect; it also heals. When there is a wound or a disease, Phryll level is weak.”

Potential Applications of Phryll

Health and well being:

Home unit could deliver in the local environment air to breath that has been Phryll vitalized

Home unit could impregnate the Phryll into the house water supply for drinking or bathing

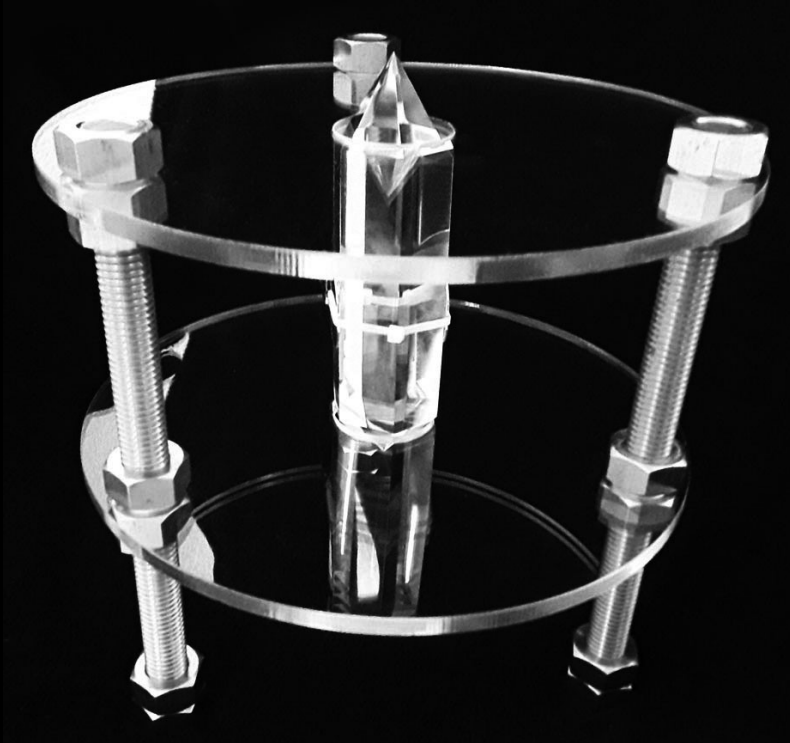

Phryll Spa could charge the water in a chamber for the client to immerse into for revitalizing

Agricultural:

Phryll unit could impregnate water irrigation lines to nourish multiple plants to grow rapidly and abundantly while eliminating the need for fertilizers and pesticides.

2 Reality Transflux Modulator

The “Reality Transflux Modulator” allows through a consciousness interface with an activated open vortex of the eye of the crystal to be able to modify the holographic matrix and alter reality.

2 configurations to support the crystal with pure silver electrodes

Potential Applications of Reality Transflux Modulator

Using your creative consciousness with loving intention, envision a desired reality to come into physical manifestation by modulating with your intention the etheric energy that is being transponded by the crystal to be imprinted into open singularity vortex of the void which uses the grid of the universe to change the holographic matrix of reality.

Examples:

In healing ones self, you can visualize a more healthy optimized avatar of yourself to be superimposed onto your current avatar. As the universe tends toward perfection, the healthier pattern will be supported to morph into physical reality

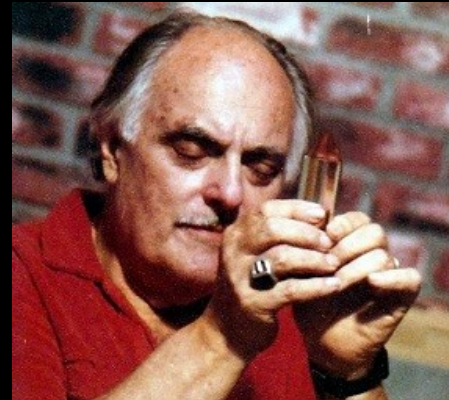

Or, to positively affect the planetary matrix morphogenic field, you can envision the type of world that in your heart you would like to see manifested.

3 Crystal Healing Work

Expanding upon the legacy of the pioneering work of Dr Marcel Vogel into the research of the interface of consciousness with specially cut quartz crystals for healing applications.

Now with the greater understanding of cutting the crystal in perfect alignment with the grid of the lattice in order to access the eye, crystal healing work has the ability to restructure the holographic matrix of reality to more rapidly allow healing transformations to occur.

“These methods I have just read are effective. I wish I had known such a great mind and such a vibrant being as Marcel Vogel. His legacy must endure and be used to assist the people of Terra in their evolution of consciousness.” - Jen Han Eredyon

4 Crystal Clearing Device

Based on Jen Han's information and developed by our Science Team member Kent Noonan. This device sends acoustically a highly precise frequency of 4096 Hz via a sound transducer. It was verified to be effective by Oona, the emissary of the Intergalactic Confederation, to fully clear all imprints within the quartz crystal lattice structure. This is essential when doing work with crystals, that there are no influencing energy patterns imprinted that can affect the work.

4096 Hz Quartz Crystal Clearing Device

5 Water Clearing Device

Based on the statement by Jen Han, “Remember: quartz, light, love, water, have the same frequency.” Since quartz resonates at the frequency of 4096 Hz, I asked does 4096 Hz also clear the patterned imprints in water?

Jen Han said “Yes, it does. Even when used on your physical body, it shakes the dissonance out of the water that makes up this physical shell.”

I ask, in other words can it clear or even structure water to be healthful?

Jen Han said “Yes it can.”

This is currently being researched

4096 Hz

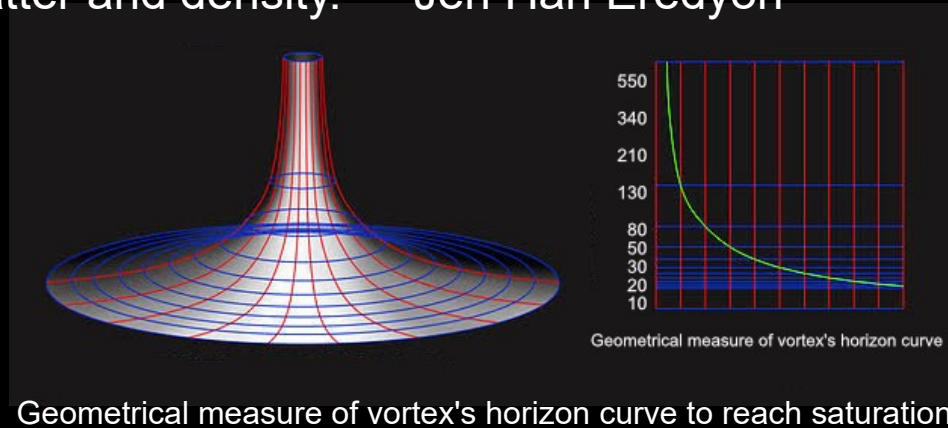

6 Crystal Phryll Charger

Another potential application to be developed is a handheld frequency generator that places silver electrodes on the eye of the crystal and sequences the pulsed frequencies of the vortex horizon curve from 10-20-30-50-80-130-210-340-550 Hz to reach saturation which will open a singularity vortex. At that point, the crystal is overloaded and saturated with Phryll and you would immediately disconnect the pulses and hold the crystal in your hand to absorb the Phryll into your body which will have an amazing beneficial effect on your health.

WARNING:

“There is a time/mass ratio that corresponds to the saturation point. Because there is a saturation point. After this point is passed, the crystal implodes. It becomes Light and transcends matter and density.” - Jen Han Eredyon

7 Phryll exercise to repair DNA

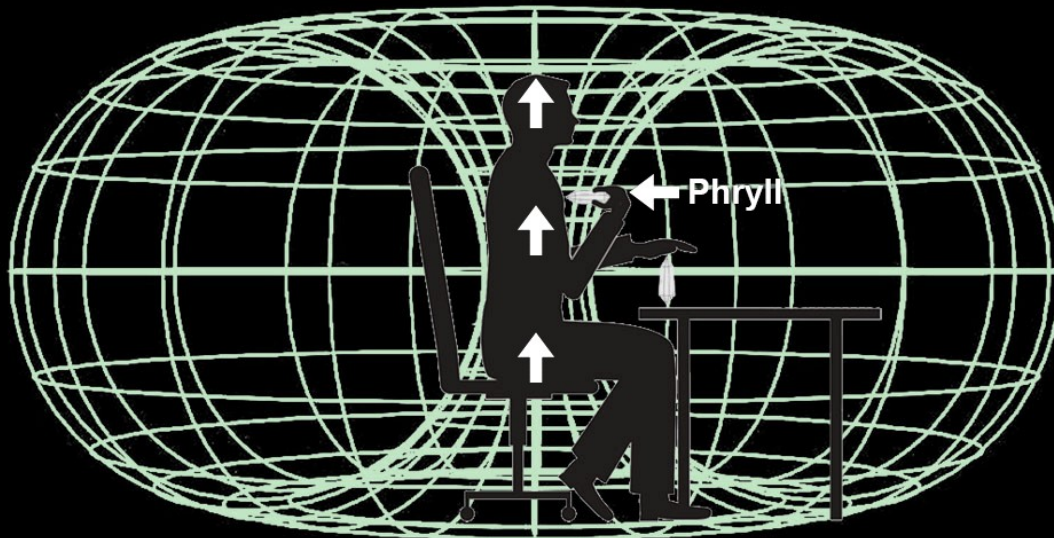

Thor Han Eredyon says that this Phryll harvesting technique is part of the "Dorm Dorhu", their Pleiadian "yoga" practice. This will assist regeneration and help to alleviate disease and deterioration of our Terran envelopes. It reconnects the Hydrogen links between the chromosomes' intra elements. DNA can be transmuted into a stable state of auto-regeneration, once you unlock the blocks that keep the strands disconnected from the morphogenetic field of the universe.

The use of a crystal is optional to enhance the projecting of Phryll in this exercise.

Gamma brainwaves are the first step.

Visualize this influx of Phryll into your central heart vortex with your pulsed breath to be feeding the upward toroidal flow that is circulating upward from the base of your spine up to the top of your head and back down again, continually repeating the cycling of this toroidal energy flow, as you pulse breath the Phryll into your heart vortex to energize this flow.

These potential applications based on our current understanding of their technology are undergoing further research and development and is available to everyone as open source to the people of our planet, as this knowledge that has been given is a gift from their world.

The Crystal Science

Transponding the lattice of TIME in the Crystal

“Quartz is a transponder by nature. It connects points on the grid of space. It vibrates not only on the lattice of space, but also on the lattice of time. Your science will soon discover this. Quartz is the highest state of solid matter before the state of light. That is why quartz can heal tissue.” - Oona

Oona - Emissary of the Intergalactic Confederation

“It doesn't reorganize matter on a molecular level, but it repairs it by transponding the injured organic tissues with the vibratory key of a previous state before the alteration was made. It reorganizes dissonance with a resonant template.” - Oona

Vogel Cut Crystals

“Crystals have their own fractal geometry. If they are in their natural original shape they have it active naturally. If they are cut roughly they lose it, but if cut following the lattice structure they keep it, and can even be enhanced considerably that way.

Thor Han tells me that you know what type of crystals correspond to what I say.”

Elena says "the Vogel cut crystals?" and Thor Han says Yes.

Dan asks “are the Vogel cut crystals significantly more powerful than a natural single quartz crystal points for doing this work?”

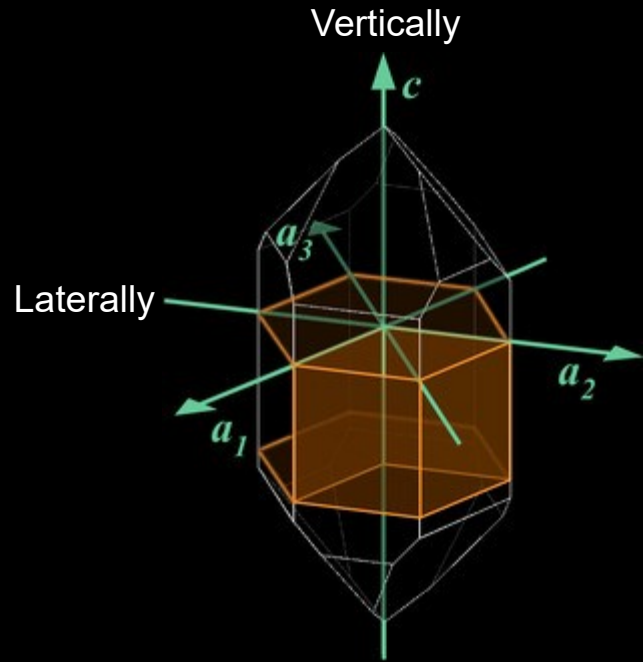

“Oh yes they are, if it is cut rightly. In perfect alignment with the grid of the lattice.

Natural raw quartz are of course effective, but the Vogel cut as you name them are a more surgical tool to operate into the fabric of space-time and universal consciousness.”

Core

51.843°

Why 51.843 degree angle?

“This is a ratio that acts as a transponder. It is dynamic geometry. Some shapes, just because of their proportions, naturally affect the holographic structure of the matrix. We use this specific pyramidal ratio to build our Phryll generators. Because the geometrical structure of the central crystal, in a generator, will interface with the pyramidal ratio of the building or the machine harvesting its energy.

The most accurate is 51.843 angle degree. The ratio of the dimensions of this pyramid is the most exact as it corresponds to a universal value which is light. Geometry generates frequencies. I told you, remember: quartz, light, love, water, have the same frequency. A small crystal functions with a 52 angle.”

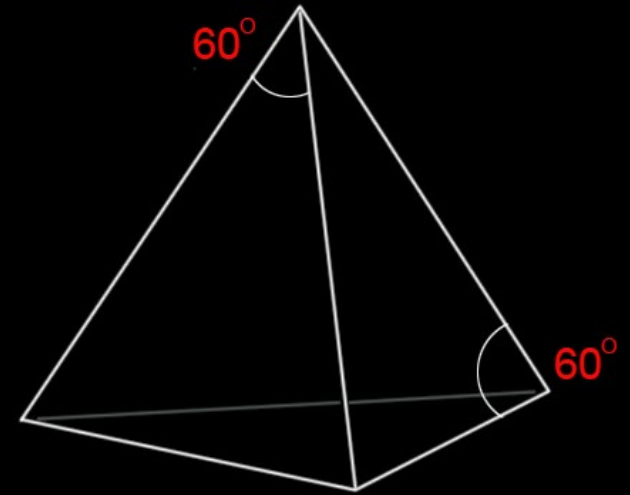

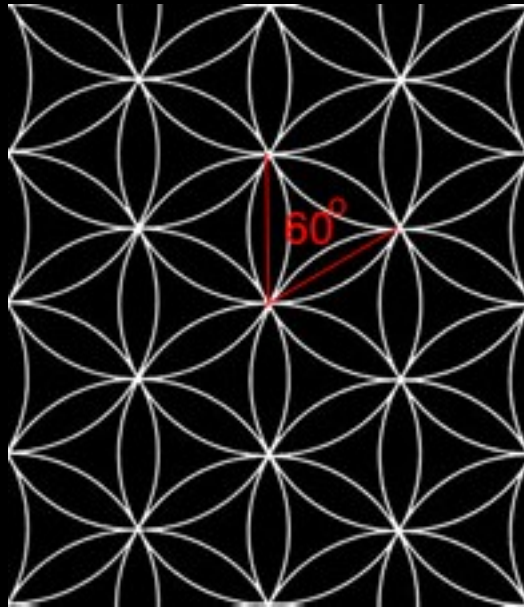

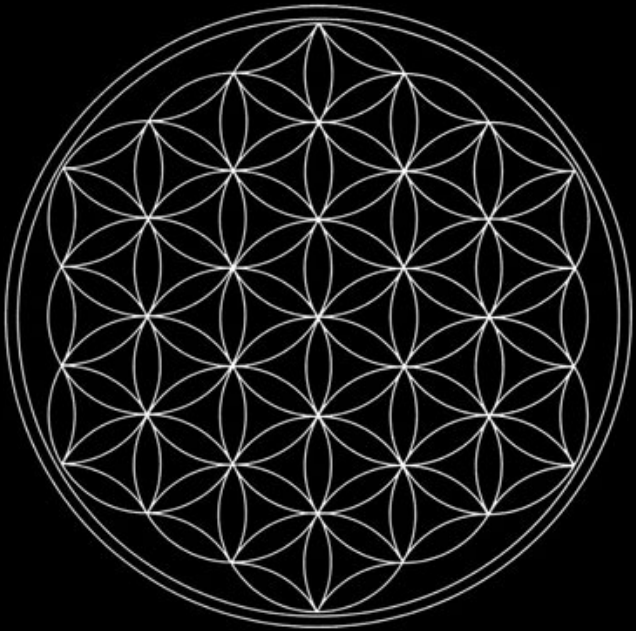

- Jen Han Eredyon

Why 60 degree angle?

"It is because the sender angle must be in resonance with the geometry of the holographic matrix that is the receiver."

- Jen Han Eredyon

Modifying the Matrix of Reality

How to modify the holographic matrix

"I was told that the mission you have chosen consists in teaching the Terrans how they can change their reality. You always knew this.

Teach them how to activate the vortex, and how to modify the holographic matrix"

- Jen Han Eredyon

Forbidden by the Prime Directive

The following information was previously forbidden by the Prime Directive to be shared. Thor Han Eredyon was able to obtain special authorization from the Galactic Federation of Worlds. This was based on a question I asked regarding an inter-dimensional portal between the charge triads in the crystal's lattice structure.

The phase-conjugation node for the vortex singularity of the crystal

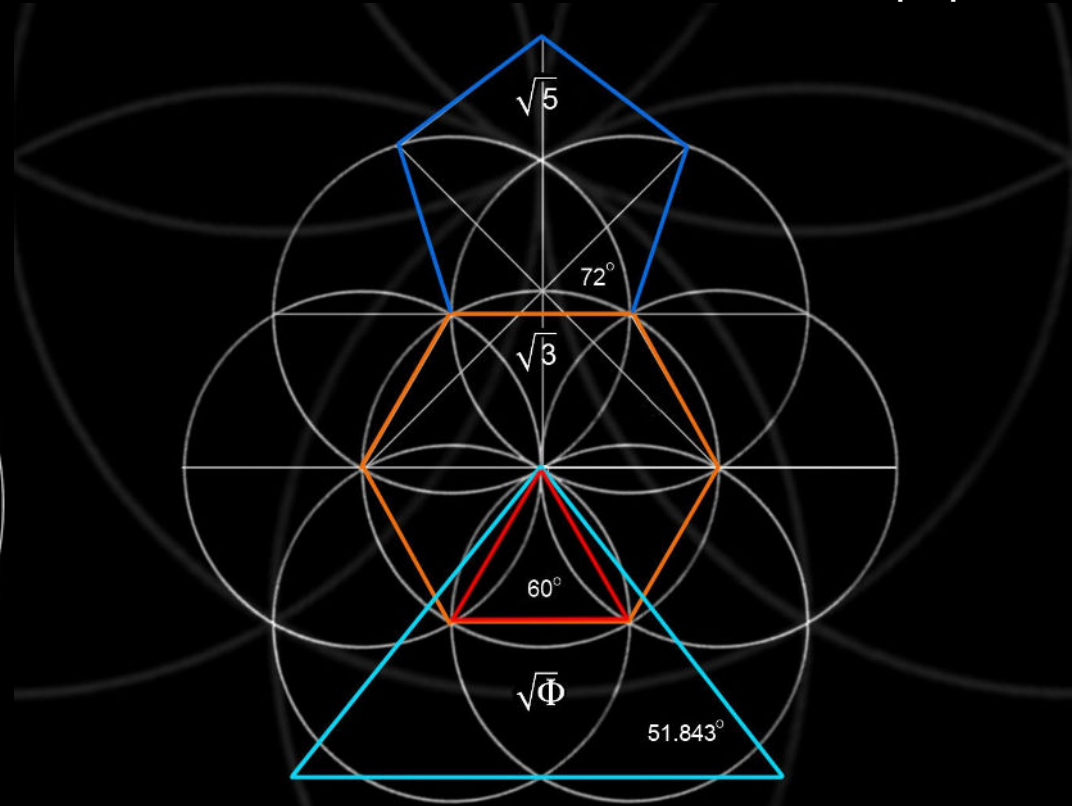

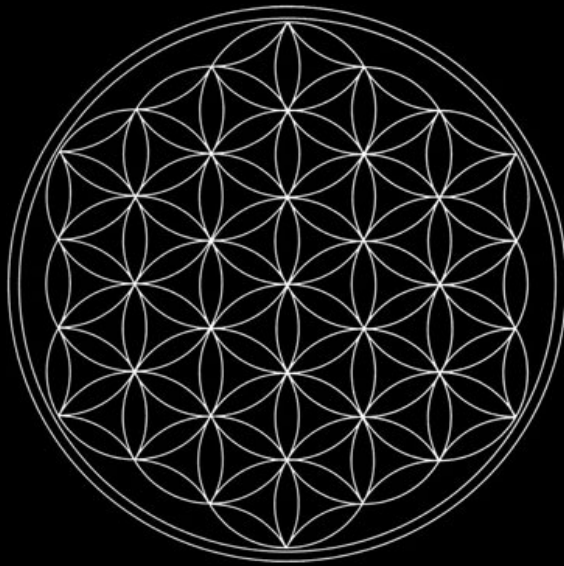

“It works by finding the phase-conjugation node inside the crystal, by projecting inwards the geometrical shapes of the two opposite points, like a mirror. There, is the vortex singularity of the crystal. Focus your thought and energy just there, and you may project your consciousness to anywhere you wish in this universe, and the other universes. To other densities, other dimensions. Anything is accessible in space, dimension and time. This is great power, Elena. It is a very important information. I am honored to be allowed to share this with you.”

- Jen Han Eredyon

Now I am honored to be allowed to
share this science with all of you

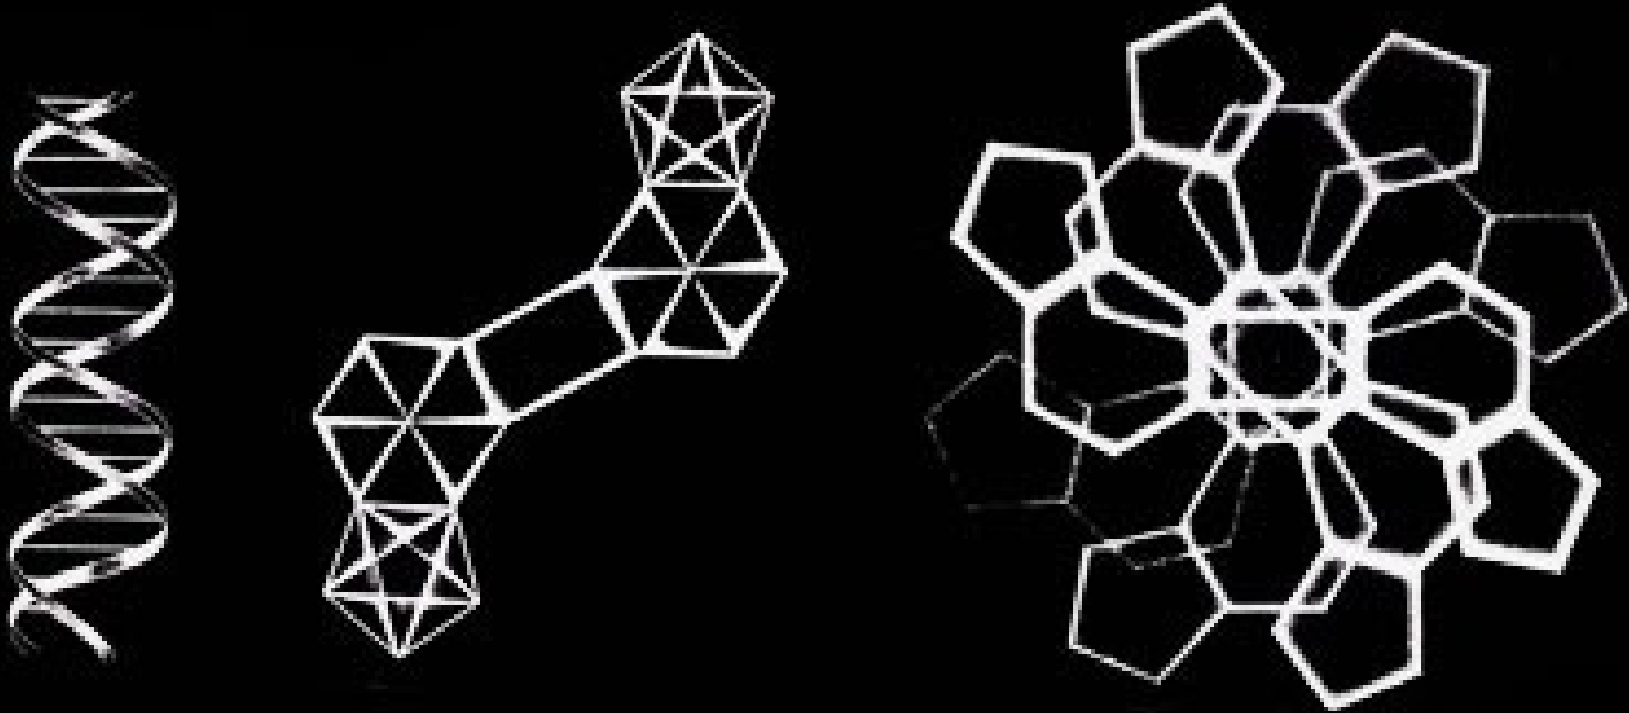

“The ratio of the hexagonal-pentagonal multi-layered blueprint applied to a living organism will produce cellular evolution. Humans, plants, stars, and so on. This ratio is the key to life and is also represented in the blueprint you know as the Flower of Life. Those who understand the secret geometry of the Flower of Life can create universes and life forms to populate them.”

The two frequencies of vortex spin are based on the different angles of inclination of the two terminations

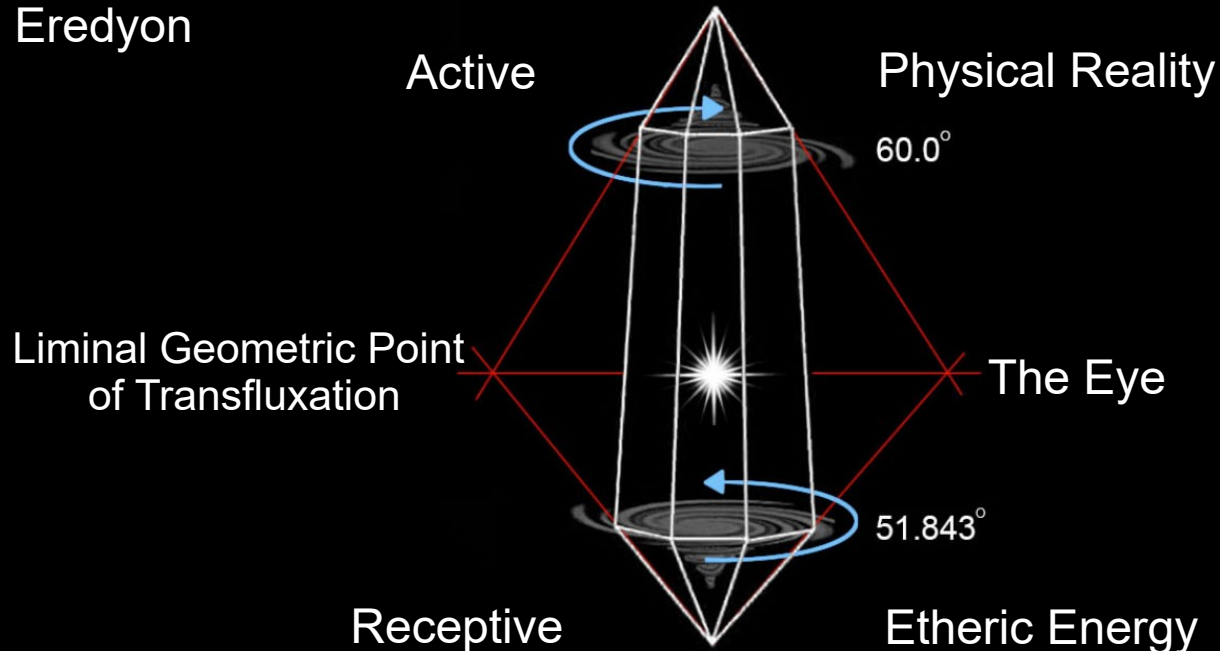

“The two dynamics counter-rotate and meet at the vortex singularity. Because of this counter-rotating dynamics, the vortex is open by phase conjugation of the two frequencies. At the same frequency rate, the dynamics cancel. You need a difference in speed rate to create a dynamic, for the experience to tend toward... perfection, and since nothing in the universe ever reaches the absolute point of perfection, the universe is alive through the dynamics of evolution.”

- Jen Han Eredyon

Etheric energy into physical reality

“The 51.843 angle geometry transponds etheric energy and the 60 angle geometry imprints it into the holographic matrix of the universe. This is a great network. This is how we implement etheric energy into physical reality, and this is how the Liminal Geometric Point of Transfluxation allows the intentions of consciousness to imprint a geometric thought pattern.”

- Jen Han Eredyon

"A pyramidion creates a Phryll vortex. Phryll is the etheric energy. The vortex you depict in this visual is the etheric energy harvested by the pyramidion, the dynamic influx of this harvested energy, the mathematical ratio of the pyramidion, generates a double coiled torsion field."

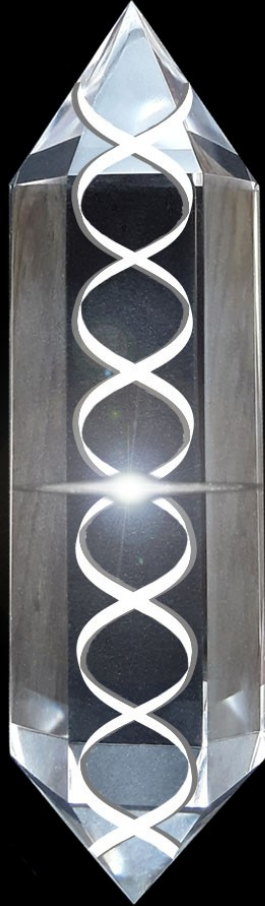

- Jen Han Eredyon

“The two dynamics twirling in opposite directions create a phase conjugated tension that creates singularity in the hologram. A convergence of infinite power”

How to activate the vortex

To activate and open the vortex eye of the crystal it needs to be piezoelectrically stimulated. This creates a dynamic reaction between the two polarities of the charge triads of the lattice structure and it creates an exponential reaction that triggers the singularity portal.

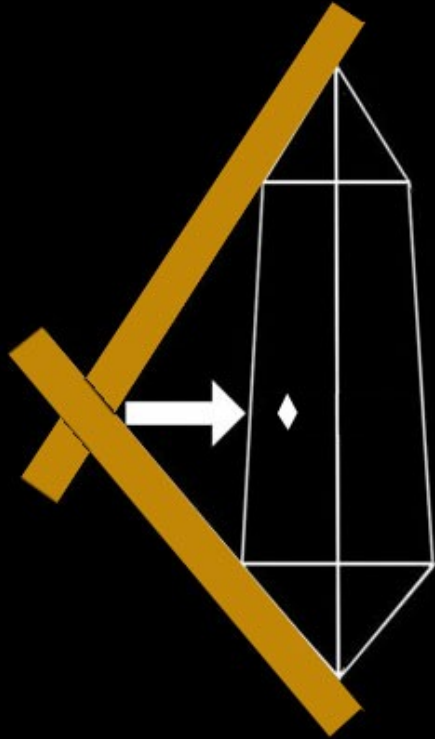

Piezoelectric physical or electronic pulse pressure
is applied to both sides of the vortex singularity

Quartz inclusions are permissible in a Vogel/Erdyong cut crystal except in the area of the eye of the crystal

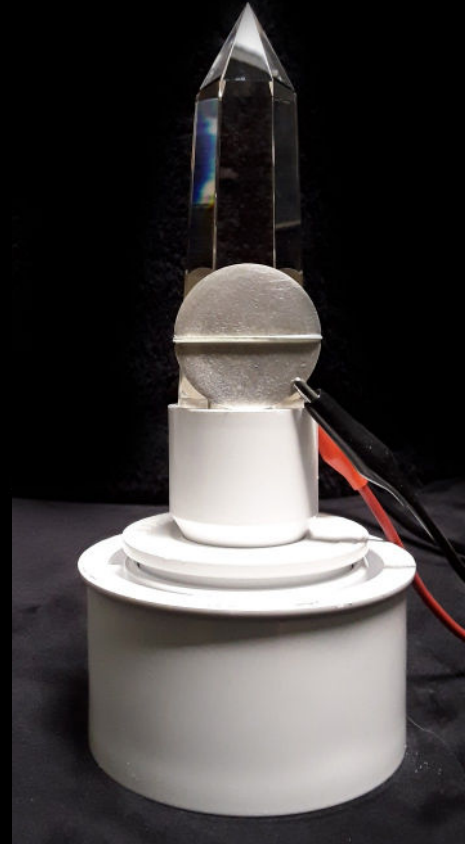

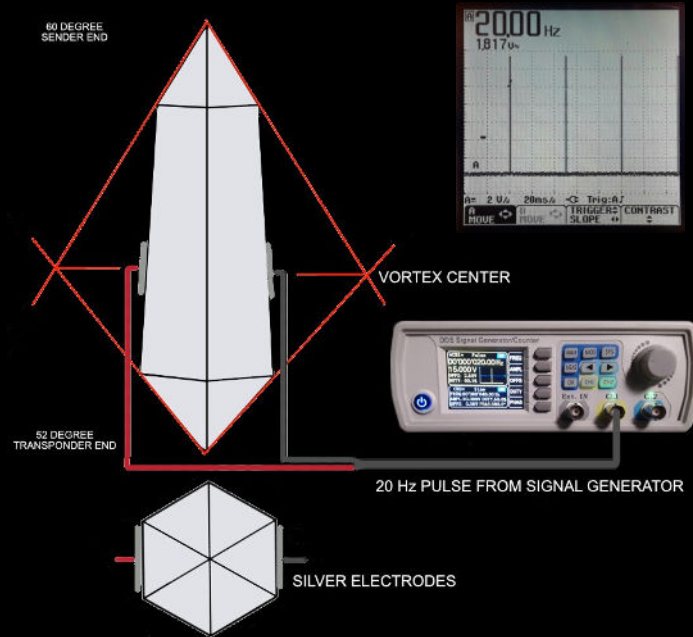

To momentarily open the vortex with finger pressure

Elena and I initially set up our crystals to keep the eye of the vortex open continuously by electronically pulsing at 20 Hz the crystal piezoelectric lattice with compression waves

Current designs of the “Reality Transflux Modulator” to support the crystal

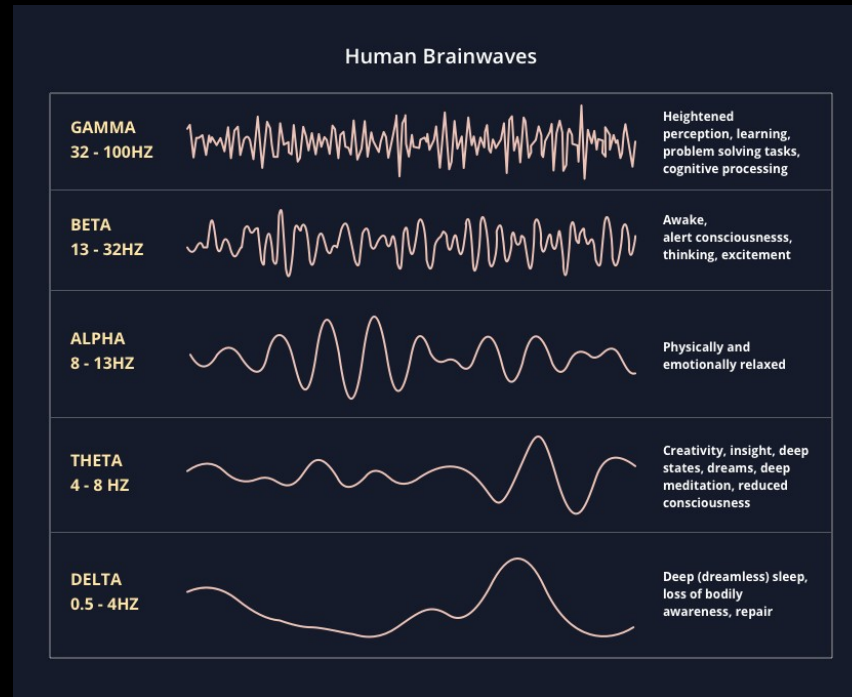

Pure silver electrodes are placed across the area of the eye and electronically pulsed at 20 Hz

Gamma brainwaves open the vortices in the mind to be more effective

“You can improve the effectiveness by preparing the people longer beforehand. It is good if they are in Gamma brainwaves before starting the work. Gamma brainwaves open the vortices in the person's mind and anything becomes possible. I know you do not have the technology but try find a way, maybe by meditation as you call it.”

- Jen Han Eredyon

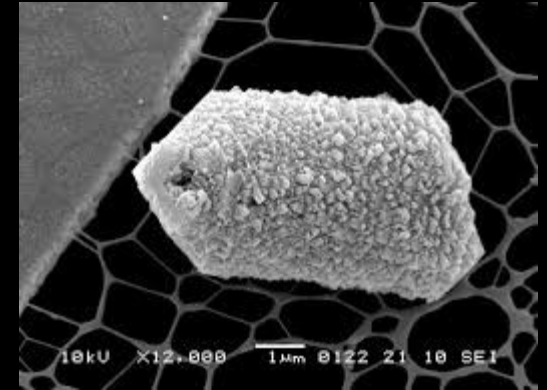

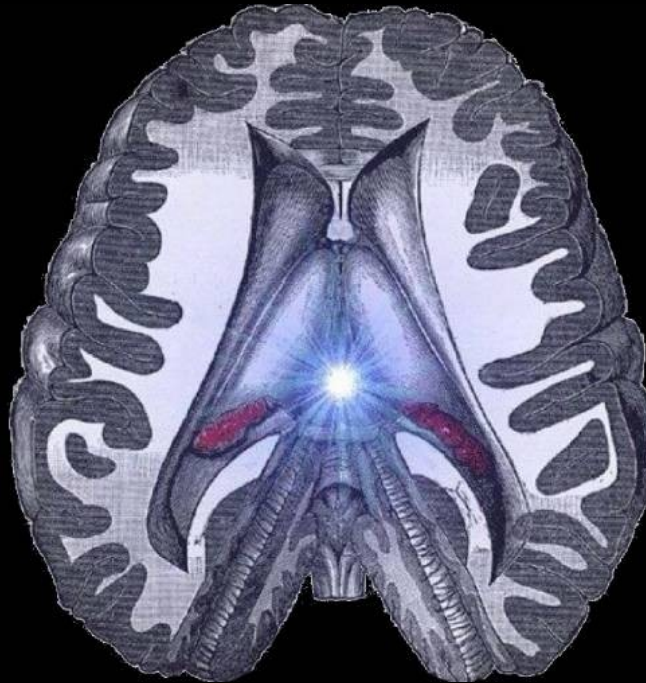

This gamma state attained by meditation is sometimes expressed as a state of deep love for all beings

“The crystals in your pineal gland are calcium carbonate, which is organically produced by the tissues of the human body. These micro-crystals generate an electromagnetic field at the center of which is an inter-dimensional vortex for consciousness.”
